\$25,000,000 Worth of Explosives Goes Up In Smoke

Streets of New York Strawn with broken glass and Shattered Signs

Loss of Life not Definitely Known

A series of terrific explosions occurred at an early hour last Sunday morning on Black Tom Island, a small strip of land off Jersey City, in New York Bay, when ammunition awaiting shipment to the Entente Allies, went up in smoke.

The detonations, which were felt in five states, began with a continuous rapid fire of small shells, then the blowing up of tremendous quantities of dynamite and other high explosives, followed by the heaving of thousands of shrapnel shells, which literally showered the surrounding country and water for many miles around.

A terrific conflagration started soon after the first explosion and completely destroyed the huge warehouse of the National Storage Company, situated on Black Tom Island, in which merchandise valued at about \$15,000,000 was stored. The shock felt in New York was similar to that of an earthquake and many of the huge skyscrapers were shaken to their foundations.

The loss of lives is not yet known, but it is stated by the authorities that it will happily be comparatively small.

Advertisers are kindly asked to bring their change of ad. in to this office by Monday noon previous to day of publication.

The Patriotic Fund

Acadia Constituency Has Its Assessment doubled this year

The Acadia Constituency was assessed for \$3,500 for the year commencing Sept. 1st, 1915 and ending Aug. 31st, 1917. Up to June 30th, of the current year the sum of \$3,143.55 has been received by the South Alberta Branch from this constituency, and a further contribution of \$300 from the Oyen branch is acknowledged in another column of this paper.

With another month still to go, Acadia will easily pass its assessment mark.
The task-set for Acadia for the next fiscal year is just doubled; \$7,000.00 being asked for. This may seem to some a large sum of money, but figured out per capita, it represents but the price of a box of candies or a few days' smokes.

Those who have contributed in the past, have done so very generously, but there are hundreds who have not given at all. This coming year, it is the intention of all branches of the Canadian Patriotic Fund to organize a campaign which will thoroughly cover their respective districts, and an opportunity will be given to all to give something to the fund.

A public meeting will be held on Wednesday, August 23rd, in the Methodist church, for the purpose of electing officers and discussing business for the coming fiscal year. Meeting to commence at 8:15 p.m. sharp. Show your patriotism by being present.

It will be gratifying to all Red Cross workers in the province of Alberta, to know that the splendid work of their Hon. Secretary, Miss Mary Pinkham, has been recognized by His Majesty the King, who has made her an Hon. Associate of the Order of St. John of Jerusalem.

Alberta has, from the beginning of the war possessed one of the most loyal and efficient Provincial Branches, and the success of the Branch is very largely due to the untiring energy and splendid efficiency of Miss Pinkham, ably seconded by Mrs. Waugen.

Canada Tobacco Fund

Among the papers left by Richard Harding Davis, the brilliant American War Correspondent and Author, his brother discovered the follow-

ing message, written apparently a few days previous to his death.

"Men at home who breathe tobacco smoke as freely as they breathe air, cannot know how much tobacco means to the man in the trenches, or rather how much the loss of it means. During the Spanish-American War, in the U. S. army regulations, tobacco was officially classified as 'Officers' Supplies.' It was considered a luxury."

"When I called from Cuba that our soldiers in Cuba needed tobacco, my appeal was ridiculed and I was asked if our soldiers did not also want silk pajamas and eau-de-cologne. The man who had never gone without tobacco, and who could fill his pipe or case at the corner, still thought tobacco a luxury."

"It was Sir Frederick Teyssie, during the South African war, who made people understand that for the soldiers tobacco was a necessity. A man can hunger, he can suffer cold and wounds; these things he can endure if he can smoke."

"I have been a smoker on seven wars, and I find it go with each of them, and with men of all races. Give them tobacco and there is no hardship that they will not cheerfully suffer. So with the purpose of your fund, I, for one, am heartily in accord."

"If the glorious record of the Canadian Troops has been made on short rations of tobacco, we may feel confident that well supplied with it they will in a short time be in Berlin, which is the heartfelt wish of Richard Harding Davis."

The above is the testimony of a man who has been through seven wars, and who himself knows personally a soldier's needs. No comment is necessary on our part. That great imperial institution, 'The Overseas Club' is endeavoring to provide for the needs of the Empire's soldiers from overseas. It has organized Canada's Tobacco Fund for the comfort of our Canadian soldiers, and has already raised in Canada upwards of \$130,000.00 for this purpose.

Unfortunately, the money being subscribed is insufficient to provide each Canadian soldier with a weekly tobacco supply, and an earnest appeal is made for more funds.

We should be glad to receive and forward contributions to the headquarters of the Fund in Canada, and those who can render assistance are invited to communicate with Francis R. Jones, the Organizing Secretary, Room 24, Windsor Hotel, Montreal.

For 25 cents The Over-Sea Club will send to the front as much cigarettes and tobacco as a private individual can purchase for \$1.00, and will enclose in each package a box of matches and a postal card for the soldiers to express his thanks. For one dollar a month our readers can make provision for the smoking needs of one of Canada's boys at the front, and surely there is no smoker left in Canada who would like to think that his friends who are defending the Empire and adding glory to Canada's name are going short of a smoke.

There ought to be no difficulty in securing that each Canadian soldier has his weekly tobacco supply, and we invite our readers to help in the accomplishment of this purpose.

A postal card addressed to Canada Tobacco Fund, Windsor Hotel, Montreal, will bring a supply of circulars, literature and collecting book. WILL YOU HELP?

WELL DRILLING! A TESTIMONIAL

Oyen, Alberta,
May 31st, 1916

To Whom it May Concern.

I, J. F. Honsick, of the Post Office of Benton, Alta. Canada, do hereby state that I have for five years been hauling water for stock and other purposes from three to four miles. I tried every means for the above number of years to get water and was unsuccessful until I looked up John Ozsust, of the Post Office of Oyen, Alta. Well Driller, with the reputation of getting water where others fail. Since a well completed by the said J. Ozsust I have been pumping three weeks and have not been able to lower the water in the well.—J. F. Honsick.

Travel from one to two years free in your Ford on your saving in one year's depreciation

Other cars in the \$1000 or less class, after one year of service, are worth from \$250 to \$400 less than their purchase price. That's their depreciation.

Ford cars, after a year's hard work, sell on an average for only \$125 less than they cost brand new. That's Ford depreciation.

The difference in depreciation of these year-old cars ranges from \$125 in the one case to \$275 in the other—both considerable savings for Ford owners.

Thousands of owners tell us that it costs .024 per mile on an average to drive a Ford—paying for gasoline, oil, tires and repairs.

So, if your saving in depreciation for a year is \$125 you pay all your expenses for 5,208 miles—while if it is \$275, you have kept enough money in your pocket to pay for driving your Ford 11,438 miles.

Buying a Ford in preference to other less than \$1,000 cars, lets you save in one year's time a difference in depreciation that pays all your motoring bills for from one to two years.

Think it over.

He was the son of a bishop, and his mother was teaching him the meaning of courage.

"Supposing," she said, "there were twelve boys in one bedroom, and eleven got into bed at once, while the other knelt down to say his prayers, that boy would show true courage."

Do You Need a Mower or Rake?

We have in a car load of
Massey-Harris New No. 21 Mowers

These Mowers were tested last year for the first time by men of this district who know the best mower on the Canadian Market to-day.

If You Need a
Massey-Harris Rake

to use in your haying operations, call in and we will be pleased to show you what we have on hand.

Stuart B. Lawrence,
OYEN, ALTA.

OilPull Means This

FUEL at one-half the price means lower operating costs, smaller upkeep expenses and bigger profits.

Bear in mind that the OilPull is the only tractor that will successfully burn kerosene and cheaper oil fuels at all loads, under all conditions—all the time.

The OilPull, through deep plowing and thorough soil working, is increasing crops for a great many Dixie owners—in some cases doubling them. Burning kerosene, the OilPull adds this increase to your bank account at the lower possible cost.

A more dependable tractor than the OilPull can't be bought and you will find it able to take care of all your power jobs, whether draw-bar or belt. Two sizes, 15-30 and 30-60 horsepower.
